

Garrett® Drag Racing Turbochargers

Drag racing demands more from your vehicle than almost any other Motorsport and you demand just as much from your turbo! A Garrett® turbocharger is put through harsh testing before it ever stages to give you the dependability you can count on each and every pass. Our engineers work directly with race sanctioning bodies to insure that there is a Garrett® turbocharger to meet your class' rulebook; even providing low-volume wheel combinations that allow for extreme thermal expansion to keep you on track!

Turbo	Part Number	Compressor			Turbine		CHRA
		Whl Ind.	Whl Ex.	Trim	Whl Dia	Trim	
GT4294R	774595-9	64.9mm	94.0mm	48	82.0mm	84	451888-40
